

BIKE LANE - DEFLEX 48

48" FLEXIBLE BIKE LANE DELINEATOR

This high-performance Deflex flexible delineator for bike lanes is a durable marker to set boundaries on the road. Safer than a rigid delineator and clearly visible day and night, it has been designed for the safety of the most vulnerable road users. Lightweight and resilient, the 48" Deflex delineator is made of a treated polymer blend to withstand harsh weather and vehicle impacts, and keeps its shape after as many as 200 impacts at 55 mph/88 km/h. 48" is the best height for being visible by all road users the bike Deflex 48 is a great traffic calming tool for the benefit of Vision Zero.

TECHNICAL SPECIFICATIONS OF THE 48" DEFLEX FLEXIBLE BIKE LANE DELINEATOR

Features

Materials	Delineator: Flexible Polymer with anti-UV Sheeting: Diamond grade "prismatic", type IV
Features	Proven product since 2012 in harsh weather conditions and in temperatures between -20 and +35°C (-4 and +95°F).
Performance	360° flexibility and visibility. The Deflex delineator withstands 200 impacts at 70 km/h (45 mph) and regains its original shape, even after being crushed by the wheels of heavy trucks.
Standard	NCHRP-350
Certifications	MTQ T-RV-10 GUQ-1036
Composition	Molded-in and non-detachable flexible cap. Four (4) embedded stripe sections protected from damage. 3M prismatic grade (type IV) reflective sheeting, flexible and visible on 360°. Many colors available, pigment integrated into the polymer material.
